Mr. Patrick Merik  
Merik Building Construction Consultants  
3225 Shallowford Road, Suite 820  
Marietta, GA 30062

Dear Pat:

I am pleased to write this letter regarding my experience working with Merik during the eight years I managed real estate for Havertys Furniture Company. Havertys Furniture Company has retail and warehouse facilities throughout the southern region of the United States. The various buildings have a variety of roof and wall systems that require periodic maintenance and ultimately replacement at the end of their service life. Merik has conducted services on our roofs and walls at more than 25 locations, providing a proven level of professionalism.

On one specific project in Macon, Georgia the retail store was experiencing significant leakage at numerous locations. Merik was hired to conduct a condition survey to determine the problems, provide recommendations on what course of action should be completed and put budget estimates for the options to be considered.

The accepted recommendation called for reroofing the 67,000 square foot building with an energy efficient white single ply roof system. Merik provided us with a computer analysis of the expected heating and cooling costs for different levels of insulation and white roofing. We were able to choose a level of installed cost that would provide the most efficient energy cost over the life of the new roof.

Merik handled the entire project from the bid stage to the final inspection. All the contract admin services were done in a professional manner. The construction observation kept us informed of the stage of the work throughout the project. The project was completed on time and in budget.

Havertys tracks the energy expenses on an individual store basis and was able to verify the savings in cooling and heating costs that resulted from the reroof project. The store manager said they could tell where the new roof was installed each day because of the changes in the interior store temperatures.

All in all we have valued our relationship with Merik and have received professional services on every project.

Sincerely,

A handwritten signature in cursive script that reads 'Beverly Rollins'. The signature is written in black ink and is positioned below the word 'Sincerely,'.
