RECOMMENDATION LETTER

To Whom It May Concern:

Merik Inc. Building Construction Consultants previously did the design and construction administration for a roofing project at Georgia Northwestern Technical College. This project was located on the Floyd Campus in Rome, GA and consisted of the re-roofing of four buildings. This project involved roofs on different elevations that tied together.

Pat Downey at Merik is very knowledgeable about the design and installation of various roofing products. I would use this company in the future and I highly recommend them for any project that you may have at the present time. I feel you will not be disappointed with the quality and efficiency that this company offers.

Sincerely,

A handwritten signature in blue ink that reads "Johnny Trotter".

Johnny Trotter,
Director of Facilities
