

# Sussex Headquarters Building

Atlanta, Georgia

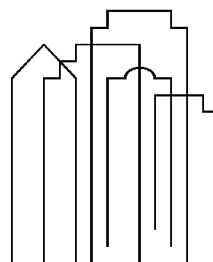

The Sussex Building is the headquarters for the Georgia Department of Labor. The building underwent a comprehensive renovation on its exterior envelope and parking decks.

The Merik scope of work involves concrete restoration, removal of the existing wall coatings, sealant installation and new elastomeric wall coatings. All ribbon windows were resealed, cleaned and polished.

Merik conducted the condition assessment, specification and construction drawings development, construction contract administration, construction observation and final punchlist inspection.
